(a) A corrupt organization centrally coordinates an abundant of crimes against an individuals' knowing and willingly course of conduct that inflicts extreme and inhumane pain and suffering on a specific person by impetuously and covertly inflicting grave bodily injury for the rest of the victim's life. These injuries are mostly imperceptible or often seem to have naturally occurred and are perpetrated in such a sophisticated and malicious method as to render the victim's torture complaint perceived as delusional or paranoid. Prior to the enactment of this chapter, the police and federal agencies have instantaneously dismissed the victim's complainants presumptuous that the victims are delusional or paranoid and are mistakenly detaining the victim's in psychiatric institutions for observation. Electronic Torturing has a major influence on an individual's health; it can cause memory loss which transforms into early Alzheimer's, and attributes into cell damage of the brain. It can cause rape of an individual, sleep deprivation, ptosis of the eyelids, irritable bowel syndrome, destroys the nervous system, respiratory system, muscular systems and Neurological system of a victim or person. It can cause nausea and a feeling of malaise, tinnitus, tremors, seizures, radiation which in return can cause cancer, destroy human tissue, cortical and autonomic consequences, heart attacks, depression, mania, anxiety, phobia, ear damage, auditory nerve damage, produces muscle spasms, damage to the auditory cortex, irrational behavior, and physical damage to organs. It also may perhaps penetrate to the vestibular organ with sufficient strength for stimulating the exquisitely sensitive vestibular hair cells. Nose Bleeds, Loss of balance, seizures, and headaches, rectal bleeding are also symptoms that may occur due to the connection of the

brain through the neural circuitry and central nervous system. Although no one knows what causes Parkinson's disease it is possible that radiation and microwave attacks can be a leading role and Morgellons disease can also be included within and produce side effects from the non-lethal weapons that produces severe itching, burning sensations, and cause an adverse effect to form silk like substance to emit out of a person's or individuals body.

(b) The purposes of electronic torture are known to alter the human mind and behavior without authorization and consent of the person. The use of Electronic Torture through electronic weapons, electronic devices and non-lethal weapon systems allows the victim to be discredited when filing a complaint to any law enforcement and federal agencies. The victim of Electronic Torture is forced involuntarily into mental institutions and forced on medication by the court systems without taking a proper report or providing a proper investigation. Altering the mind and behavior of a person is inhuman, interfering with neurological receptors of the brain circuits and direct access to the memory, to lose functions and capabilities of a person's body. Discrediting any nonconsensual person or experimentation subject, punishing the victim for crimes that the victim has never committed or prosecuted by a judge, jury or tried in court. Electronic Torture is used to coerce the victim under control and manipulation of the torturers organizations and force the victims to do vicious acts upon society that the victim's do not want to commit but are manipulated to commit through the psychological warfare and social engineering tactics. Through the use of non-lethal weapons, electronic devices and electronic weapons systems remotely induce, control, and influence a victims or persons body function and body movement, through different methods such as movement pairing, motion-to-motion capture, and manipulation of the nervous system.

(c) Electronic Torturer perpetrators intentionally select survivors of abuse, so the victims are easily controllable, victims with disabilities so they cannot earn a proper income, afford assistance and support. Victims

who have committed crimes in the past whether they be misdemeanors, traffic violations, lower economic status, so the victim cannot afford the appropriate help they need by funding or resources given to them by the public. We the people of the United States of America would like to recommend and put forth a special task force be set into place to investigate electronic devices, electronic weapons, and non-lethal weaponry that is being used against the United States Citizens and Nevada Citizens. This special task force that conducts the investigation on the victim of Electronic Torture will not attach to any of these departments: FBI, CIA, DHS, NSA, DoD, D.O.J. or law enforcement agencies. The special task force will be a different department, called Electronic Torture Investigations (O.T.I) meant only to investigate the victims of Electronic Torture and Havana Syndrome victims. Within this Special task force, they will be responsible for the following:

- 1) "FMRI scans of the victim's whole body with and without contrast." This will prove any abnormalities or damage done to the body by the non-lethal weapon systems, electrical devices, and electronic weapons, and prove the locations of the Brain that is being attacked and white masses shown.
- 2) "Full body X-ray" The purpose of a full body x-ray is to determine such factors as implants.

- 3) “Blood Analysis” It is known that electronic weapons, electronic devices and non-lethal weapons alter the victim’s body. With certain tests run a victim has results of High lipids, low salt, high cholesterol, radiation levels, poisons and Nano technology. Simple Blood test and analysis can be drawn and also tell the electron count in the blood cells and prove the paramagnetic in the blood cells, with conjunction to the non-lethal weaponry that is being used on a person or individual. This will also help prove that the victim is being tortured through Electronic Torture.
- 4) “RF detectors” The special task force will be responsible for going to the victim’s home and investigating radio frequencies that are against FCC and EPA levels and regulations.
- 5) ELF-EMF Field meter- .1 – 199.1 gauss
- 6) Handheld RF frequency detector
- 7) Wireless UHF, RFID scanner, reader, writer, scan
- 8) UV light- 385 nanometers-400 nanometers
- 9) Night Vision Scope
- 10) Toxicology report
- 11) Handheld metal detector
- 12) Portable spectrum analyzer 3g and 6g
- 13) H-Scala testing
- 14) H-SCADA Testing
- 15) 3 in one digital dental CT scan.
- 16) “Network Analyzer” will pick up lower and higher frequencies, and prove hacking and cyber crimes.
- 17) “Real Time Spectrum Analyzer” will show the signals that are being used on the victim of Electronic Torture, and radio frequencies that are being used for broadcasting through FM/AM bandwidth and Radio frequencies.
- 18) “RF spectrum analyzer” The special task force can run an analysis and pick up electromagnetic radiation and the respective wavelengths.
- 19) “Computer technicians” investigate if a victim’s phone, computer, laptop, or tablet has been hacked into or being traced and monitored. The technicians can trace signals and addresses to locate the perpetrators and criminals.

20) “Audio surveillance, and subliminal acoustic fingerprinting” It has been proven once the audio, video and phone conversation is stripped the victim can hear the perpetrators and pick up the signals that are being used to torture the victim. The perpetrators use this to communicate with the victim and other associates of the Electronic Torture against the victim. This is an assured way to prove that the victim is being tortured by electronic weapons, non-lethal weapons, and electronic devices. Along with audio surveillance the special task force can analyze a phone conversation and hear the perpetrators on the other end of the phone conversation.

21) “Triangulate signals and positions” Once the audio is confirmed the special task force can locate and track a signal to locate the perpetrators or criminals.

22) “Flight Pattern/Drone surveillance” Electronic Torture use different techniques to harass, destroy, invade, stalk, assault, and torment the victim. If drones are being used to carry out Electronic Torture, there must be laws set in place to assure the victims safety.

23) “Camera surveillance” will be put up as security measures for the victims of Electronic Torture. With a monitoring system to evaluate any harassment by the perpetrators or criminals. Perpetrators and criminals often break into homes of their victims and remove items, destroy property, destroy vehicles and torture pets. The monitoring system will catch the perpetrators in action and will be able to prosecute in a legal manner.

The special task force will be subjected to the same punishment as stated above for any Violations of subdivision g2340.5.

Often times the group of attackers, criminals are of a sadistic nature, and believe in Satanism, satanic rituals, belong to cult like organizations, and believe that population control is necessary.

Chapter 51- Homicide

Code 1111- Murder

Code 1112- Manslaughter

Code 1113- Attempt to Commit Murder or Manslaughter

Code 1117- Conspiracy to Murder

Code 1119- Foreign Murder of United States Nationals

In Electronic Torture The perpetrators often systematically and maliciously design the victims' death. The perpetrators often use electronic devices, non-lethal weapons and electronic weapons on the victim to drive the victim into insanity the perpetrators know that the victim will not go to the police for fear of retaliation the victim will lose all hopelessness and commit suicide.

Chapter 71- Obscenity

Code 1464- Broadcasting Obscene Language

Code 1470- Transfer of Obscene Material to Minors

The perpetrators of Electronic Torture often use electronic devices that broadcast statements through means of radio communications, cell towers, soundwaves, transmissions, any form of internet capabilities, and is even possible from satellite transmission as well. Perpetrators send messages through the frequencies such as death threats, racial slurs, and hate crimes towards the victim. If the victim has children or a child, the perpetrators often use the technology against the children or child to make the victim feel vulnerable, defenseless, unprotected, self-doubting in not being able to protect his or her family.

Chapter 88- Privacy

Code 1801- Video Voyeurism

In Electronic Torture the victims are watched continuously for the rest of the victims' life. The perpetrators put video cameras, RFID chips, IR sensors, electronic devices, or even electronic weaponry in the victim's home, vehicle, and anyplace the victim travels. The perpetrators use the technology in the victim's child or children's area of sleep, eat, play, and even bathe. The perpetrators can use this technology and broadcast it on the internet, persons phone, to a group or even a community. This is done without the victim's knowledge or consent.

Chapter 103- Robbery and Burglary

Code 2111- Special Maritime and Territorial Jurisdiction

Code 2113- Bank Robbery and Incidental Crimes

Code 2114- Mail, Money, or other Property of United States

Code 2119- Motor Vehicles

Often perpetrators of organized stalking will break into the victim's vehicle, home, and even steal the victims mail. The perpetrators intentionally take small significant items of the victim and nothing of real value, so the victim either has to replace it because miniscule necessity and when the item is replaced often the perpetrators will return the item to make the victim aware that the perpetrators have access to the victim's home and is helpless and cannot do anything about it. Local authorities will not open a case unless items of value were stolen out of a victim's home. If the victim files multiple complaints it makes the victim look

impractical. The perpetrators take the mail of the victim so the victim misses, work opportunities, destroy chances of school, doctor appointments, family events such as weddings, funerals, force the victims to lose government assistance programs, Medicare, disability, Insurance, or homes by not receiving the victim's notices in the mail.

Chapter 109A- Sexual Abuse

Code 2241- Aggravated Sexual Abuse

Code 2242- Sexual Abuse

Code 2243- Sexual Abuse of a Minor or Ward

Code 2245- Offenses Resulting in Death

Electronic Torture groups and perpetrators use electronic devices, and non-lethal weaponry and electronic weapon systems to sexually assault the victim. The perpetrators harass the victim in the shower, in the victim's bed, home, vehicle and even work so the victim cannot escape. The perpetrators point the electronic weapons and non-lethal weapons at the victim's private areas to produce orgasms and intentional pain. This type of technology demoralizes, humiliates, desecrates, and violates the victims' rights. Since this technology leaves no scars and is not seen by the naked eye it is hard for the victim to prove to authorities without the proper investigation. This technology can also be used on the victim's children or child. Having knowledge to the victim that the perpetrators are victimizing his or her child or children and knowing the perpetrators will not stop unless the victim kills him or herself the victim will often take their own life so the abuse on the child or children will then stop. Often the perpetrators will not stop after the death of the victim and will continue to harass and torture the children.

Chapter 110- Sexual Exploitation and other Abuse of Children

Code 2251-Sexual Exploitation of children

Code 2252-Certain Activities Relating to Material Involving Sexual Exploitation of Minors

Code 2252A Certain Activities Relating to Material Constituting or Containing Child Pornography

With the type of technology such as electronic weapons and devices the perpetrators use this technology against children. The perpetrators use it to exploit children in a malicious manner. The Perpetrators have

access to the children's home, school, and any place the child treasures. The perpetrators will sell, auction, or distribute photos and videos of the child for malicious intent, and publicize access on the Dark web and Red Room torture chambers.

Chapter 110A- Domestic Violence and Stalking

Code 2261- Interstate Domestic Violence

Code 2261A- Stalking

Code 2263-Interstate Violation of Protection Order

With the new technology perpetrators can use this technology against the victim wherever the victim is located. Since it is done in an Organized manner the ex-husband or ex-wife can hire within the state jurisdiction or out of state jurisdiction. The perpetrators can hack into security systems or even hire a company or corporation to track cell phones, computers, tablets, or any electronic device that the victim possesses. The perpetrators can do this at any location and harass the victim without consent. The local authorities will not investigate unless the victim has the proper evidence of such acts. Unless the victim has that evidence, the local authorities will also not press charges on a perpetrator on a violation of protection orders unless an investigation is conducted.

Chapter 113B- Terrorism

Code 2331- Definitions

Code 2332a- Use of Weapons of Mass Destruction

Code 2332b- Acts of Terrorism Transcending National Boundaries

Code-2332h-Radiological Dispersal Devices

Code 2332i- Acts of Nuclear Terrorism

Electronic Torture is a group or people who uses electronic weaponry, and electronic devices on the victim. As stated above in chapter 19 the perpetrators claim themselves to be perpetrators hired by the government, government agencies, government employees or government authorities that technique is used so the perpetrators can never be prosecuted, and the victim is terrified to even come forward. Just the assumption or accusation of the local enforcement not helping the victim causes the victim to feel a thought of

hopelessness, detestation towards the government system, and loathing for local officers. Perpetrators can use electronic weaponry and electronic devices to put those thoughts in a victim's head and plan terroristic acts upon the government and the community. This technology of electronic devices and electronic weaponry produce small amounts of radiation that the victim builds up and eventually produces cancer.

Chapter 113c- Torture

Code 2340- Definitions

Code 2340A- Torture

Electronic Torture produces severe mental pain and suffering on the victim. The perpetrators intentionally inflict pain and threaten the victim's life by physical pain and suffering through electronic devices, electronic weaponry, and non-lethal weaponry. The administration and application of this weaponry renders mind altering behavior and alters the personality of the victim.

Chapter 115- Treason, Sedition, and Subversive Activities

Code 2381- Treason

Code 2382- Misprision of Treason

Code 2382 Rebellion of Insurrection

Code 2384- Seditious Conspiracy

Code 2385- Advocating Overthrow of Government

Same as chapter 19 and 113b the perpetrators using electronic weaponry, electronic devices, and non-lethal weapons claim that they are hired by the government, government agencies, government employees or government authorities that technique is used so the perpetrators can never be prosecuted and the victim is terrified to even come forward. This act is treasonous against the United States of America. It puts uncertainty, blameworthiness, detestation, aggression, dysfunction in society, racism, loathing, and even violence towards the United States government. Since the victim's mind is altered to believe such acts the victim can be forced to behave in a manor that is unconstitutional or law abiding, since the victim will never get released from this Electronic Torture. Electronic devices, electronic weaponry, and non-lethal weapons can

be built by any group, person, company, or foreign military and used against the citizens of the United States and Nevada citizens.

Chapter 118- War Crimes

Code 2441-War Crimes

Code 2442- Recruitment or use of Child Soldiers

Electronic Torture is not just done by citizens of the United States. Electronic devices, electronic weaponry, non-lethal weaponry can be built by anyone anywhere. This type of technology can and has been used against government diplomats such as China and Cuba and against even our military. The perpetrators can use this technology and secret information without the governments knowledge and or consent. The perpetrators can use this technology on children and give the child orders to do such horrific acts against people and the Community, one example is school shootings
